

# Sadaqat Ali

Android Developer

## Education

- 2017 - 2020  
**University of Sindh**  
Bachelor of Science in  
Computer Science

## Technical Skills

- **Programming languages**
  - Kotlin
  - Java
  - Dart
- **Android Development**
  - Android SDK
  - Gradle
  - Firebase
  - Coroutines
  - Hilt DI
  - Live Data
  - Rest API
- **Flutter Development**
  - Flutter SDK
  - BLoC
  - Firebase
- **Version Control**
  - Git, Gitlab, BitBucket
- **Design Patterns**
  - MVVM clean architecture,
  - MVC, MVP

## Experience

- Jan 2023 - Present  
**Android Developer**  
Oasis Live Stock, Abu Dhabi, UAE
  - Designed and developed Android apps using Kotlin and Dart.
  - Collaborated with cross-functional teams (designers, product managers, backend developers).
  - Gathered requirements and delivered high-quality solutions on schedule.
  - Implemented clean architecture and industry best practices for code quality and scalability.
  - Improved app performance by resolving memory leaks and performance issues.
  - Addressed UI rendering issues.
  - Integrated third-party APIs for features like social media auth, payments, and location services.
  - Led code reviews, mentored junior developers, and conducted technical trainings to improve the team's Android skills.
- Jun 2019 - Dec 2022  
**Android Developer**  
PNC Solution - Appiskey, Karachi, Pakistan
  - Involved in full life cycle application development, which included requirements gathering, analysis, conceptual design, configuration, development, bug fixing, testing, and publishing Apps.
  - Enhanced App performance by developing dynamic UI, used Coroutines and Android Jetpack libraries.
  - Boosted project development by collaborating with cross functional teams to efficiently design and deliver new features.
  - Engaged in Agile ceremonies like daily stand-ups, sprint planning, and retrospectives for efficient project management and continuous improvement.
  - Consistently met or exceeded business and client requirements.

- **Tools**

Android Studio, Visual Studio, Eclipse, Postman

- **Integration**

Facebook, Google Plus, Twitter, LinkedIn, Admob, Volley, Retrofit

- **Localization**

Google Maps, Current Location, Finding direction, Distance Calculation, Nearby places etc

- **Firebase**

Analytics, Authentication, Crashlytics, Cloud Messaging (GCM), Google Push, Notification, A/B testing, Performance, In-App messaging

- **Agile Methodologies**

Project Management: JIRA, Scrum

---

## Languages

**English** - Advanced

**Urdu/Hindi** - Advanced

**Sindhi** - Native

---

## Most Proud Of

- **GDSC LEAD**

Google Developer Student Clubs - University of Sindh. Year (08/2020 - 08/2021)

- **FOUNDER**

Hyderabad Student Developer Community (HSDC). Year (01/2020 - 12/2021)

## Projects

- **Zabihaty**

- Project Summary: The Zabihaty application offers you an easy and quick way to purchase slaughtered animals and have them delivered to your door.
- Assignments: Development, bug fixes and deploy App on Play store.
- URL: <https://play.google.com/store/apps/details?id=com.atp.zabehati>

- **Thahabi**

- Project Summary: THAHABI App offers a collection of Variety of hot selling and edgy fashion trends pertaining.
- Assignments: Design, Develop, Integrate new features, and deploy App.
- URL: [https://youtu.be/39W6Lyu93SI?si=3J8LMfpU8F68t\\_7V](https://youtu.be/39W6Lyu93SI?si=3J8LMfpU8F68t_7V)

- **Laundry - ( User and Driver )**

- Project Summary: Laundry App assists providers of laundry and dry cleaning services in boosting their sales through digital solutions.
- Assignments: Design, Develop and Integrate new features.
- URL: <https://youtu.be/oMYHdCTpyC8>

- **OPD**

- Project Summary: OPD is more than just a doctor-finding app; it's a comprehensive solution for booking doctor appointments, scheduling diagnostic tests, and collecting medical reports. This project is dedicated to providing online medical services that empower users to take control of their healthcare journey.
- Assignments: Designing and developing new features, bug fixes.
